

FRANCE IRRITATED BY GREAT BRITAIN

PROTEST AGAINST SOUDAN EXPEDITION.

Lord Dufferin Asked to Explain the Purpose of Sending British Troops Up the Nile—Ill Feeling Toward Great Britain Shown at Paris.

Paris, March 18.—The French government up to this time has not defined its position toward the proposal to dispatch an Egyptian expedition up the Nile. There is reason to believe that the proposal came as a surprise to the French government. French statesmen had been entertaining the hope that an opening of negotiations was near at hand looking to the evacuation of Egypt by the British troops. Next to the sovereignty of Germany over Alsace-Lorraine, probably the greatest source of irritation known to French diplomacy is the British occupation of Egypt. The present move on Great Britain's part is doubly irritating, coming as a check to hopes which French statesmen had allowed themselves to entertain.

The first intimation of the probable course France will take in view of the new conditions in Egypt came Tuesday. A sensation has been caused by the announcement made by M. Berthelot, minister of foreign affairs, in the cabinet meeting, that he had asked the British ambassador, the marquis of Dufferin, for information regarding the proposed advance of British-Egyptian troops up the Nile, and had pointed out to him the serious consequences of such an advance. This warning note may be a preliminary to more decided steps. The prevailing sentiment expressed here is one of indignation at the course adopted by Great Britain, and the general feeling is that France must adopt a decisive tone in dealing with the matter.

France is not deciding upon the course she will pursue without a full understanding with her Russian ally and it is announced that numerous telegrams have passed between Paris and St. Petersburg on the subject. It is understood here that Great Britain also sounded the Russian government before announcing the Egyptian program. But the action of the czar in conferring upon the Negus Menelik the military order of St. George is accepted as peremptory notice that Russia has no sympathy with Great Britain's plans for aiding and relieving the Italians in Africa.

As one of the guaranteeing powers to the Egyptian bondholders, France has more than the usual interest of the other powers in the disposal of Egyptian revenues, and she may refuse to consent to the cost of the Nile campaign being charged to the Egyptian budget. The skepticism semi-officially expressed by the French government as to the alleged necessity of the campaign in the interest of Egypt indicates a purpose to try to restrain the disposal of Egyptian revenues.

The apprehensions aroused in France by a British campaign up the Nile extend beyond Egypt, beyond Dongola and Khartoum and into central Africa and the sources of the Nile, where French colonial expansion has been active or more active than it has been in Tonking and up the Mekong. This French expansion threatens to absorb the valley of the Nile itself, and to push on to the borders of the Italian possessions in Ethiopia, thus forming an obstruction between British Uganda and Egypt. Great Britain has viewed these encroachments with impatience, and French observers do not fail to note that even liberal members of the British parliament express the belief that Lord Salisbury is looking to recouping the Soudan and opening the way to the British possessions in South Africa.

France fears that the Egyptian advance to Dongola covers a British advance to Khartoum and to Uganda and an interference with her prosperous colonial expansion in central Africa. The British occupation of Egypt is sufficiently galling in itself, but more so in its threats to French plans in Africa beyond Egypt.

London, March 18.—A dispatch from Rome to the Times says that the Marquis di Rudini's statement regarding the new government's policy in Africa has not produced a good impression, and is considered pointless and indicative of an uncertain policy. The comment of the press is mostly unfavorable.

Kitchener Will Command.
Cairo, March 18.—Sir H. H. Kitchener, the brigadier-general in command of the Egyptian forces, has been definitely appointed to command the British-Egyptian expedition which will advance April 1 on Wada-Halfa up the Nile and toward Dongola.

Italy Will Continue the War.
Rome, March 18.—The new cabinet, headed by the Marquis di Rudini, met the chamber of deputies for the first time Tuesday. The Marquis di Rudini made a statement regarding the policy of the government in Abyssinia, which may, perhaps, be summarized in the words: "Peace with dignity and honor." He also asked for a credit of 40,000,000 lire (\$2,800,000) to defray the expenses of the African campaign, and to send additional troops to Abyssinia, should such a step be necessary. The credit was granted unanimously and with cheers.

THE END IN KENTUCKY.

Legislature Adjourns Without Electing a Senator.

Frankfort, Ky., March 18.—The curtain was rung down on the Kentucky legislature Tuesday afternoon, and no United States senator was elected. Wood G. Dunlap, who was seated by the house, causing the expulsion of Walton and James by the senate, came up from Lexington in the morning and had an interview with the republican nominee, St. John Boyle. Dunlap, however, was still obdurate, claiming that it would be no use for him to qualify, since the republicans would be unable to elect, and he did not qualify.

The joint assembly met promptly at 12 o'clock and took the last and fifty-fourth unsuccessful ballot for United States senator. The democrats refused to answer the roll call, sixty-six republicans being present. Both republicans and democrats refused to answer when the ballot was called to determine a quorum. Two republicans answered the call for absentees, both voting for Boyle. No quorum voting, the joint session was adjourned.

In the house a resolution was read commending the governor for calling out the state troops. Bedlam broke loose, but the republicans were enabled to get a favorable vote on the resolution.

In the senate a strong resolution censuring the governor was passed. Senator Blackburn spoke at the opera house, and announced himself a candidate for re-election in 1898. His term of office expires March 4, 1897, from which date until January in the following year Kentucky will have but one representative in the senate.

THE IOWA MONUMENT.

Legislature Has a Never-Failing Topic—Business Transacted in the House.

Des Moines, Iowa, March 18.—The debate on the soldiers' monument consumed two hours and a half Tuesday and was not finished. Speaker Byers took the floor in the house in the morning to discuss the consideration of the code. He advocated going ahead with the regular work and leaving the code to get along as best it could. The motions to fix the time for adjournment were all voted down.

A resolution passed instructing the appropriations committee to make no appropriations in excess of the revenue to be derived from a two and a half mill levy. A meeting of the ways and means committees of both houses was held for the purpose of considering a proper basis of valuation for raising revenue. The bill providing for state control of private banks was defeated in the house by a vote of 50 to 31.

Prohibitionist Leaders Are Shy.

Pittsburg, Pa., March 18.—John G. Woolley of Illinois, who has practically been conceded the prohibition presidential nomination if he desired it, has written a letter to Chairman Castle of the national committee declining to allow his name to go before the convention, stating that he preferred to loyally follow, rather than lead. Ex-Governor St. John of Kansas has also declined the nomination, which leaves Joshua Levering of Baltimore as the only one mentioned at present. The prospects for a large crowd at the convention are good.

All the Delegates for Morton.

New York, March 18.—The result of the republican primaries held in New York and Brooklyn Monday night shows an evidently solid Morton delegation from these cities. It has been asserted that some of the anti-Platt men were secretly working for McKinley, but the election of the machine republicans leaves no doubt that the winners are out and out Morton adherents.

Kansas Populists in Session.

Hutchinson, Kan., March 18.—Delegates are here in force to attend the populist state convention, which was called to order here at 11 o'clock this morning. Indications point to the election of Chairman Breidenthal and Secretary Semple of the state central committee, ex-Congressman Harris and ex-Gov. Leveille as delegates-at-large, and it is believed the resolutions will be in line with the Omaha platform.

Claim All for McKinley.

Indianapolis, Ind., March 18.—The McKinley managers in this state announce in advance of the district conventions, which will be held Thursday, that the delegates are pronounced McKinley men, except Henry New of this district, who wants to see Allison nominated, but will vote for McKinley because the feeling of the district is that way.

Judge Clark Withdraws.

Mattoon, Ill., March 18.—The number of aspirants for the nomination for governor of Illinois in the republican state convention has been reduced by one. Judge Horace S. Clark of this city on Tuesday withdrew from the race. He says he does so in the interest of harmony in the party.

Would Be Governor of Missouri.

Mexico, Mo., March 18.—Mayor Cyrus P. Walbridge of St. Louis spoke to the republican county convention here Tuesday, and said he was out for governor of Missouri. He was well received. The convention unanimously endorsed William McKinley for president.

The 'Lyonettes' cigars are unanimously and with cheers.

UNCLE SAM'S STAND WORRIES WEYLER

OUR RECOGNITION OF CUBAN BELLIGERENCY.

Spanish General Losing Sleep Over the Question—The Usual Defeat of Insurgents Reported From Havana General News of the War Via Censor.

Havana, March 18.—Captain General Weyler betrays the fact that he is greatly worried about the status of the question of recognizing the belligerency of the insurgents.

Before the serious engagements at Candelaria there were five separate engagements with the insurgents. General Suarez Valdez and General Linars have each had an engagement near Candelaria, province of Pinar del Rio, with the insurgents. The latter are said to have lost 200 killed and wounded. They are being pursued by the troops of the two generals mentioned and by other Spanish troops.

Six thousand insurgents under Maceo tried to penetrate into Sagua. The Spanish garrison, under Colonel Inclan, repulsed the enemy, killing twenty-two and wounding eighty. The insurgents set fire to the suburbs of the town. There are 226 political suspects and prisoners of war in Sagua jail, who will be sent to Havana.

The guerrilla regiment of Sagua fought a band of insurgents at Guayaba, killing four and wounding seventeen. Several bands of insurgents united again and attacked the guerrillas at the plantation of Carolina, which had already been burned. After an hour's firing the insurgents were dispersed, leaving seven killed and carrying off their wounded. The guerrillas had one killed and three wounded.

It is announced that the insurgents have killed fourteen farm laborers at Palmyria, province of Matanzas, and it is added that the local guerrilla force, which went to the assistance of the men in danger, were fired upon, with the result that five of their number were killed.

The insurgent forces commanded by Pancho Perez have destroyed by fire the cane fields of fifteen estates in the province of Matanzas, involving the loss of 1,125,000 tons of cane.

Five colored men were charged with horrible assassinations of families at Cayabao, province of Pinar del Rio, last year. They are being tried by court martial.

Insurgents have burned a fine railroad bridge at Coatajales, province of Matanzas.

REFUSE TO TESTIFY.

Illinois State Board of Charities Will Accomplish Little.

Jacksonville, Ill., March 18.—Gov. Altgeld and the members of the state board of charities are engaged in investigating the charges of mismanagement made against the superintendent and employees at the Central Hospital for the Insane at Jacksonville. The principal difficulty which confronted the board in its investigation was the utter refusal of the men who have been spreading the reports to reveal the names of their informants.

Some of the attendants were examined. Their testimony was in defense of their own actions, and they strenuously denied any neglect or abuse of patients. The fact that one of the patients was killed by a train while walking upon a track, and that the death of another was due to burns received in a bathtub during the absence of his attendants from the room, was not denied, and other deaths, which it was charged was due to negligence on the part of attendants, are duly recorded, but in each of these cases the testimony of the superintendent and attendants was positive that the occurrences were unavoidable accidents.

The state board finished the taking of testimony Tuesday night, but no decision was announced.

Menominee River Log Cut.

Menominee, Mich., March 18.—A careful estimate of the amount of logs cut on the Menominee river and tributaries during the winter places the same at upward of 400,000,000 feet, against 370,000,000 for last season. All but about 75,000,000 feet of this amount will be manufactured in the Menominee and Marinette mills.

Nicholson Renominated.

Kokomo, Ind., March 18.—In the republican county primary E. S. Nicholson, author of the well-known temperance law enacted by the last Indiana legislature, was renominated by a majority of forty votes over his leading opponent, ex-County Auditor George O. Roach.

Germany's Colonial Policy.

Berlin, March 18.—There was another animated discussion in the reichstag Tuesday of the colonial policy of Germany, the supporters of the government upholding it and its opponents condemning it most strongly.

Cherokee Bill Hanged.

Fort Smith, Ark., March 18.—Cherokee Bill was hanged here yesterday. He met death bravely.

We have broken the record of all previous attempts, by placing the Lyonettes on the market for five cents.

INCREASE GRANTED IN BATTLE SHIPS

FOUR NEW CRUISERS ARE TO BE BUILT.

Liberal Allowance Made to Increase the Fighting Strength of the United States—Cuban Debate in the Senate Nearing an End—Washington News.

Washington, March 18.—The naval appropriation bill for the next fiscal year will contain the most liberal allowance for the increase of the navy carried by any bill since the war. Four battleships and fifteen torpedo boats was the decision of the committee on the question of new vessels, which had been the principal point of discussion. The democrats fought hard to secure six battleships, but the republicans stood well together and carried their point. The motion for six battleships was made by Mr. Cummings (N. Y.), and was lost by a vote of 6 to 7, but one republican voting for it.

The four battleships will be of 11,000 tons each and the cost is not to exceed \$3,700,000 each, exclusive of armament, which is thought to be an ample provision, as other ships of the same class have been built in recent years well within that figure. Five of the torpedo boats are to have a speed of 26 knots and to cost within \$350,000 each; the other ten are to have a speed of 20 knots and their cost limit is \$300,000 each.

AMENDING TARIFF LAW.

Action Taken by the House to Correct the Act of 1890.

Washington, March 18.—The house devoted Tuesday to the bill to amend the administrative tariff act of 1890, and passed it without substantial amendment. The purpose of the bill is to strengthen the act of 1890, some weak spots having been developed during the six years it has been in operation. The bill was drawn after extensive hearings, and the advice and assistance of the treasury department, the board of general appraisers, importers and others with practical experience on the subject. One of the most important changes makes increased duties and penalties for undervaluation commence at the point of undervaluation, and not at 10 per cent above the undervaluation as provided by the present law.

THE PACIFIC RAILROADS.

Consultation of Committees to Be Had on the Subject.

Washington, March 18.—In about ten days there will be a meeting or consultation between the two steering committees of the senate to see if time can be given for the consideration of a bill for the settlement of the Pacific railroad debt. The request for time will come from the committee on Pacific roads and if it appears from the views of the two managing committees that time will be afforded then the committee on Pacific roads will make an effort to report a bill at a very early day and bring it up for consideration. If the steering committees do not agree that there will be time to consider the bill then all legislation looking to the adjustment of the Pacific roads problem and the government debt will be postponed for this session and go over until the short session.

RIVERS AND HARBORS.

Several Changes Made in an Important Bill.

Washington, March 18.—It is expected that the river and harbor bill will be reported to the house within a few days.

The first estimate of the bill was about \$12,000,000, but it is now understood that the bill will not of itself appropriate more than \$10,000,000, but it will put a large number of projects under the contract system. The committee in reporting the bill in favor of the authorization of these contracts will say that it has found in the past that about 30 to 50 per cent of the appropriations are saved by the system and that it has proved economical.

To Restrict Immigration.

Washington, March 18.—The house committee on immigration on Tuesday decided to favorably report two important restrictive measures introduced by Mr. McCall (Mass.) and Mr. W. A. Stone (Pa.). The Stone bill establishes as a requisite for admission to the United States that the immigrant shall be provided with a certificate from the United States consul or other authorized representative of the United States at the place nearest his last residence that he is eligible to admission to the United States under the existing laws. The McCall bill, as amended by the committee, excludes all males between the ages of 16 and 60 who are not able to read and write English or some other language.

Cuban Debate Nearly Ended.

Washington, March 18.—The Cuban debate in the senate is drawing to a close, and the expectation is that a final vote will be taken within a day or two—possibly to-day. Mr. Sherman is keeping the question before the senate continuously, so that the speeches are not likely to last much longer. Mr. Mills (Tex.) and Mr. Platt (Conn.) are yet to be heard, but their remarks will not be lengthy.

APPLETON MAN TOSSED BY CARS

Thrown From a Bridge, He Lay Unconscious For Some Time.

Appleton, Wis., March 18.—[Special]—James Murphy was struck by a freight train while crossing the trestle over the rapids of the Fox river today and was thrown onto the pier, where he lay two hours unconscious. He was terribly cut and bruised and cannot live.

A tramp this morning stepped in front of a moving train and was knocked down and severely bruised. He confessed that he did it in order to claim damages from the road and get a free ride to E-canaba.

FIRE AT PEORIA, ILL.

Succession of Blazes Thought to Be the Work of Incendiaries.

Peoria, Ill., March 18.—The fire bell was clanging almost incessantly between midnight and 2 o'clock Tuesday morning. Five alarms were turned in and the entire department kept at work in the southern portion of the city. The fires were all of mysterious origin, and it is supposed that some one starting from Apple street walked up the railroad tracks leaving a trail of fire behind him.

The first fire was in the Hutchinson cooperage works, the largest plant of the kind in the city. The fire started near the engine-room and had secured considerable headway when discovered. The rear portion of the building was badly damaged. No estimate of loss could be given, but it is covered by insurance.

The engines had scarcely returned to their quarters when two alarms called them to the Manhattan distillery, where an immense hay stack was in flames and threatening destruction to the distillery and the other immense stacks. The hay is all baled, and it was a hard fight the firemen had. They had just got the better of this fire when a few blocks away from them at the cooperage works of Madigan, Walsh & Co., flames were seen to burst and two more alarms came in rapid succession. The fire here had a big start before discovery, and the forces had to be divided. The cooperage works were practically destroyed. Nothing is known as to the origin here, but it is presumed to have been incendiary with the rest.

A few years ago this was a favorite section for incendiaries, and fires were of almost nightly occurrence there. Thousands of dollars' worth of property were annually burned up in this way.

At 2:45 a. m. the flames from the Madigan, Walsh & Co. plant communicated to the Peoria white lead works on the north. This is a large three-story building, and the fire was in the roof. The firemen soon got it under control, however.

SILVER MEN REPLY.

Answer of Denver Chamber of Commerce to New York Institution.

Denver, Col., March 18.—The Denver chamber of commerce has mailed a reply, of which the following is the concluding paragraph, to a communication received from the New York chamber of commerce:

"We are in full accord with the sentiment that the time is past for any halting or doubtful phrases to express the meaning of political parties upon any public question. The issue is between the producers of wealth and the manipulators of the exchange. Prosperity is impossible without a sufficient and a stable money circulation. This can only be secured by the free coinage of gold and silver. By destroying the latter we have placed a bounty upon the staple products of silver-using lands and compelled them to manufacture for themselves. They are progressive, we are stationary. We cannot improve our condition by praising an honest money that is dishonest, or by denouncing a cheap currency that is not cheap. We earnestly invite the co-operation of all in the effort to convince the people that the free coinage of both gold and silver is the primary essential to permanent improvement, and that the continued degradation of silver can only benefit our foreign competitors, the lenders, the annuitants, the possessors of fixed incomes, and must ultimately destroy as it now seriously injures the welfare of the nation and the citizen."

Monetary Debate in Parliament.

London, March 18.—In the house of commons Tuesday the motion made by Mr. Whitely concerning bimetalism was taken up. The motion recites that it is the opinion of the house that the instability of the relative value of gold and silver since the action of the Latin union in 1873 has proved injurious to the best interests of the country, and it urges upon the government the advisability that it does its utmost to secure an international agreement. It prevailed.

Manderson Says Nay.

Washington, March 18.—Ex-Senator Manderson of Nebraska, referring to the proposition of Senator Thurston relative to the Nebraska delegation to St. Louis, says that it simply places the cart before the horse. "If I do not go into the convention with my state behind me," he continued, "I will have no status and will not be entered in the race. As I have said before when my state delegation sees an opportunity to make a nomination by supporting another candidate, it will be welcome to do so."

Quay's Stronghold Invaded.

York, Pa., March 18.—The republican county convention adopted resolutions instructing their delegates to vote for McKinley.

STATE CONVENTION IS NOW IN SESSION

MEETING CALLED TO ORDER AT MILWAUKEE.

Cream City Trouble Was Straightened Out and Eugene S. Elliott Will Go To St. Louis—Resolution to Be Adopted—McKinley Is Strongly Endorsed.

Milwaukee, March 18.—[Special]—The republican state convention was opened here today. The delegates began to arrive yesterday morning, and they came straggling along all day. The matter of the Milwaukee delegates-at-large has been disposed of and Eugene Elliott will go to the national convention. The Payne men had secured many proxies in the Milwaukee delegation and felt that they could muster a majority, but the Elliott men rebelled and refused to agree not to go before the convention, even if out-voted in the caucus. There was a long conference by the leaders, and finally Payne's managers made a proposition to withdraw his name, provided he was returned as a member of the republican national committee. This was accepted and the fight was over.

The convention will adopt a resolution endorsing McKinley for president and declaring that he is the unanimous choice of the party in Wisconsin. Resolutions will also be adopted strongly affirming the policy of protection to American industries as exemplified in the McKinley tariff bill and declaring for "sound money." The convention met in the Academy of Music at noon. John J. Esch of La Crosse was chosen temporary chairman, and John Ewing, secretary of the republican state central committee, will be made secretary, and these officers will be made permanent.

Watertown, Wis., March 18.—The republicans of the Second congressional district adopted resolutions favoring the nomination of McKinley.

Madison, Wis., March 18.—At the Third district congressional convention resolutions were passed endorsing McKinley and instructing the delegates to stand by him so long as Ohio remained true to him.

Fond du Lac, Wis., March 18.—Delegates to St. Louis of the Sixth district were instructed for McKinley. The convention recommended ex-Senator Sawyer for delegate-at-large.

Appleton, Wis., March 18.—The Eighth district convention unanimously instructed the delegates to vote for McKinley.

Illinois Republican Conventions.

Bloomington, Ill., March 18.—The republican convention of McLean county was held here Tuesday. The convention endorsed the candidacy of William McKinley of Ohio for nomination as the republican candidate for president of the United States. A motion to instruct for Tanner for governor was carried—138 to 44.

Watseka, Ill., March 18.—The republicans of Iroquois county held their county convention Tuesday. Judge C. W. Raymond, president of the Republican State league, introduced resolutions instructing the delegates for J. G. Cannon for congress and McKinley for president. The resolutions were adopted unanimously.

Indiana Prohibitionists.

Indianapolis, Ind., March 18.—The prohibition state central committee held a meeting here Tuesday for the purpose of supplying the vacancies on the state ticket made by the resignations of the candidates for governor and attorney general. After considerable discussion the committee selected J. G. Kingsbury of this city for the first place on the ticket, S. J. North of Milford for lieutenant-governor and C. S. Dobbins of Martin county for attorney general. Members of the committee report that the party will place candidates in the field for congressmen in all the districts and will nominate candidates for the legislature in a majority of the counties.

Gov. Matthews Worse.

Indianapolis, Ind., March 18.—There was a pronounced change for the worse in the condition of Governor Matthews Monday night and Tuesday he was worse than at any time since he was forced to leave his office on Thursday. His disease is complicated by an affection of the larynx, which is very painful, his throat being inflamed. His physician thinks the grip has been overcome and that careful nursing will bring the patient through, but the fact is not disguised that the executive is very weak and that his condition is serious.

Waller Is Out of Prison.

Washington, March 18.—Nothing is known at the state department of the detention in prison in France of ex-consul Waller, as suggested by a Paris newspaper. The records of the department show that he was released Feb. 23, and relatives in this country have had letters from him dated in England.

Will Debate the Money Question.

Atlanta, Ga., March 18.—There is prospect of a lively series of joint debates on the financial question in this state at an early date, with Secretary of the Interior Hoke Smith upholding the "sound money" doctrine and ex-Speaker Crisp advocating the free-silver idea.

ENDORSED MCKINLEY AND COOPER.

The Resolutions Adopted at the Convention Held in Beloit Yesterday.

The committee on resolutions at the Beloit convention yesterday reported the following, which were adopted, the secretary being frequently interrupted by applause and by cheers when McKinley's name was mentioned:

Resolved, That the republicans of the First Congressional district are opposed to leaving the management of national affairs to a party that has converted thousands of factories into quiet dwelling places for bats, thousands of workmen into idleness, and has driven thousands of merchants into bankruptcy, and thousands of farmers into debt and despair. We favor an American administration, and protection to American people and American industries; a money system that will allow the changing of gold, silver and paper at par, and an international agreement that shall secure such condition perpetually. We are opposed to allowing lobbyists the privilege of the floor of legislative halls. We commend the policy pursued by the republican party in congress, and especially endorse the position taken by our representative, the Hon. Henry A. Cooper. We favor William McKinley for president of the United States and pledge our support to the nominee of the St. Louis convention.

IS GALBRAITH BUYING HORSES?

Breeder's Gazette Refers to the Janesville Man's Trip to Europe.

The Breeder's Gazette says: We learn from a reliable source that Mr. Alexander Galbraith, Janesville, Wis., sailed on Tuesday of this week for England with a commission in his pocket for the purchase of high class Hackneys; but from whom he holds the commission and how many horses he will select are items which to be locked in the strictest secrecy. The fact of the commission is all that we can at present announce. Possibly some of the eastern breeder's are increasing their studs with a view to show-yard honors, and then again we recently heard it intimated that a prominent and wealthy Chicagoan had decided to establish a Hackney breeding farm and Mr. Galbraith's visit to England may be on his account. In connection with this news a very able bodied rumor reaches us that Mr. Galbraith has as his companion on his voyage, Mr. R. B. Ogilvie, Madison, Wis., whose destination is the Clydesdale breeding districts of Scotland. We are not able at this time to confirm the rumor farther than that Mr. Ogilvie accompanied Mr. Galbraith to New York.

Brothers Byrne in "Eight Bells" Come Tonight.

"Eight Bells" will merrily chime at the Myers Grand tonight. A pantomime comedy presented by such an agile corps of performers as the Brothers Byrne cannot help but be a success. The elasticity of this style of show enables all sorts of surprises to be introduced ad lib, and these the Byrnes and their company sprinkle with profuse generosity through three of the liveliest acts ever seen on the stage. The acrobatic feats follow so thick and fast as to bewilder an auditor; the plot gets lost once in a while, but no one seems to worry about it.

"Eight Bells" has been here before, but it is in better form now than ever. There has been a lot of new life infused into it and some of the life appears to be a bid for sudden death, for no one but a steady-nerved, well trained athlete could manage to get through an evening of this kind of work without serious, perhaps fatal results. Mr. John F. Byrne, the principal of the brothers, is gifted in many ways and the much misused term "a whole show in himself" fits him exactly.

Don't invite disappointment by experimenting. Depend upon One Minute Cough Cure and you have immediate relief. It cures croup. The only harmless remedy that produces immediate results. C. D. Stevens.

Here Is Good News For Men Suffering From Nervous Debility, Weakened Powers and Exhausted Vigor

Weak men suffering from nervous debility, weakened power and exhausted vigor, can now take new hope. Here is something which will powerfully interest them. It is a fact that until now sufferers have been debarred from seeking a cure by the great specialists in these complaints owing to the cost of travel to the large cities and the high fees charged by these eminent physicians.

Here, therefore, is a chance for weak men in our community which should not be lost. Dr. Greene of 35 West 14th St., New York City, who has the largest practice in the world and who is without doubt the most successful specialist in curing this class of diseases, offers to give free consultation by mail to all weakened, vigorous and nerve-exhausted men. You have the privilege of consulting Dr. Greene by letter describing your complaint and he will, after carefully considering your condition send you a letter fully explaining all your symptoms, telling you everything about your complaints so plainly that you will understand exactly what ails you. He will also give you his advice, based upon his vast experience and wonderful success in treating and curing such cases, as to just what to do to get cured. All this will cost you nothing, and you can thus have consultation with the best known physician and acknowledged most successful specialist in the world without leaving home and at no expense whatever. The doctor is the discoverer of that greatest of medicines, Dr. Greene's Nervous blood and nerve remedy, and he has discovered many other most valuable special remedies. Write to him, for this is the chance of a lifetime to get cured which you may never have again.

One Minute Cough Cure touches the right spot. It also touches it at the right time if you take it when you have a cough or cold. See the point? Then don't cough. C. D. Stevens.

RED FLAMES ATE A POWER STATION

BOWER CITY LIGHT COMPANY
HEAVY LOSERS.

The Monterey Plant Was Burned at 2 O'clock This Morning—No Cause For the Blaze Assigned—Insurance is \$3,000 and the Value of the Plant \$4,000.

The Bower City Light and Power Company met with a \$4,000 loss by fire early this morning, when the Monterey station was destroyed. They have \$3,000 insurance written with Hayner & Beers' agency.

The blaze was discovered about 2 o'clock and an alarm was telephoned to the West side station. Electrician Kline then struck box 53 from the station, and in very few minutes the department was at the scene. The flames had gotten well started before the alarm was given and the building was doomed before the department arrived. It was a hard fire to fight because of the location of the structure. The building was formerly the "Lovejoy mill," and was built of wood, a story and a half high. It had been remodeled by the electric company to suit their ends, and they had used it since last December. No cause can be assigned unless the building became ignited from the stove. There was no current on, and it is said that the blaze could not have been caused by a wire.

Two Dynamos Ruined.

Two six hundred light dynamos were in the building, and both were destroyed, but two new dynamos had been removed to the North Main Main street power station but a few days ago, which circumstance was a fortunate one for the company. The "night man," F. Croft, saw everything was all right at nine o'clock, so the theory is that the blaze started from the stove or was set by the tramps who had frequently annoyed the men at the station.

The blaze will compel the company to use steam exclusively for a time at least, which will be quite an expense in addition to the \$1,000 loss. The electric current was cut off during the fire, and some of the patrons of the company were left in darkness. The report that a man was burned to death proved to be unfounded.

The fire was discovered by the operator in the Chicago & Northwestern "block house." He telegraphed the alarm to the Chicago & Northwestern depot, and from there it was telephoned to the fire station.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of DeWitt's Little Early Risers, the famous little pills. C. D. Stevens

MANY THOUSANDS

Vitally Interested in the New
Discovery.

Whereby Nine-Tenths of the American People Will Be Benefited.

A Brief Account of It.

A man or woman with perfect digestion, the result of a healthy stomach, has no need of a nerve tonic to bring sleep, nor sarsaparilla to purify their blood, nor cod liver oil and pre-digested foods to make them fat. Why? Because a sound stomach perfectly digests the food, making pure, rich blood, steady nerves, sound sleep and all the healthy flesh a person needs to carry.

Dr. Bostwick recently stated that anyone out of health, nervous, sleepless, run down in flesh, with poor appetite, not knowing just what was the matter of them, should look to their digestion. To the stomach, and there would find the secret of the whole trouble. He says nine out of ten will have no nervous troubles, no impure blood, no weakness anywhere when the digestive organs do their work properly. To cure indigestion and dyspepsia he never advises "sarsaparilla," "stomach bitters," "pre-digested food" or any other secret patent medicine. He says the best thing, the safest and surest cure is Stuart's Dyspepsia Tablets, because they are composed of vegetable essences, fruit salts, pure pepsin and bismuth and will cure dyspepsia in every case if taken desirably and regularly. Some of the cures made by Stuart's Dyspepsia Tablets are little short of miraculous.

Mrs. Charlotte Lane, of Ransomville, N. Y., writes: I have taken only one 30-cent package of Stuart's Dyspepsia Tablets and am almost astonished at results, they have benefited me so greatly. I have always understood that dyspepsia was incurable, but now know it can be cured, for I am fully satisfied with what they have done for me. I can eat and enjoy my meals a great deal better and feel better in every way and have only used one package.

Mr. J. O. Windly, of Peoria, Ill., writes: I was unable to eat anything but the plainest food, and even that often distressed me, but since using one box of Stuart's Dyspepsia Tablets I can eat anything and everything I want.

Mrs. Samuel Keppie, of Girty, Pa., writes: I have been entirely relieved of my stomach troubles by your Tablets. I suffered three years with sour stomach and gas at night. I am thankful for them.

Mrs. A. E. Bowen, Barnard, Vt., writes: I think Stuart's Dyspepsia Tablets are the best thing for dyspepsia I ever took. I will recommend them to anyone troubled as bad as I was.

Although a new remedy, yet its remarkable success in all kinds of stomach troubles has practically settled the question that it is the best and safest remedy that can be used for weak or disordered digestion.

It is prepared by the Stuart Chemical Co., Marshall, Mich., and for sale by druggists everywhere at 50 cents per package, thus placing it within the reach of everyone wishing to give a remedy so highly commended a fair trial.

MILWAUKEE TROUBLE OVER.

Milwaukee republicans settled their squabble with a promptness that told of a united, harmonious and enthusiastic republican party this fall. This is as it should be. No quarrel over personal advantage should be allowed to mar the prospects for a splendid victory.

There is nothing that republicans need be ashamed of in the past fifteen months. Let us see that no cause for chagrin arises in the six months to come.

NO SOLID SOUTH

More republicanism will be seen in the south this year. The solid south is a thing of the past. There are two sides now in the politics of that section and the democratic party has ceased to be monarch of all it surveys. This means that the people have begun to see the folly of the course that they have been pursuing at the instance of the leaders of that party. They are tired of a policy that has only served to prevent them from gaining their due share of the prosperity of the country. The fact has been impressed upon them by costly experience that it is to their advantage in every way to act according to their own judgment in politics, and to march with the procession of enterprise and progress. They have learned practical wisdom, in other words, and it will never again be possible for the democratic party to deceive or intimidate them.

The enthusiastic endorsement of honest money and the American tariff at the Beloit convention was significant. Well-deserved words of praise for Hon. H. A. Cooper were also spoken.

People would think more of the Morton boom if T. C. Platt did not act so much like the controlling stockholder.

One or two more squabbles like that in Kentucky, and all senators will be elected by the people.

Burglars Wreck an Iowa Bank.
Burlington, Iowa, March 18.—Burglars damaged the Bradley bank at Moulton, Iowa, to the extent of \$3,000 Tuesday morning at 3 o'clock. They gained entrance through a rear window and attempted to blow open the vault. It is evident they put in too great a charge, for the entire building was wrecked and the vault door blown to pieces. The explosion awakened residents of the town, but the thieves escaped. Bank officials claim no money was taken.

Canadian Cattle Shut Out.
London, March 18.—Mr. Walter Long, president of the board of agriculture, replying in the house of commons to a proposal that the government postpone the permanent exclusion of Canadian cattle until a full report of the protests of the dominion government is received, said that the views of Canada on the subject were well known and therefore the imperial government could not adopt the proposition to postpone the exclusion of Canadian cattle.

Dixon Beats Marshall.
Boston, Mass., March 18.—George Dixon of Boston defeated Jerry Marshall of Australia in seven rounds at Music hall Tuesday night. Marshall hurt his leg in the fifth round and felt unable to continue the bout any longer. The match was under the auspices of the Prescott Athletic club, and was the star event of the season. More than 4,000 people were present. Jimmy Colville officiated as referee.

The Seed Distribution Law.
Washington, March 18.—Regarding the seed resolution, which has now become a law, Secretary Morton says he will execute to the letter the law as construed by the attorney-general. Secretary Morton reiterates his previous statement that he intends to buy the seeds all ready packed.

Labor and the Church.
The church should regard the rights of the laborer to be as sacred and binding as those of the millionaire. The laboring men of to-day need justice, not pity.—Rev. H. R. Murphy, Baptist.

FAIR EDITH MAUD IS RUN TO EARTH

WAS AGAIN LODGED IN JAIL
LAST NIGHT.

Chief Acheson and Marshal Brink Caught Her at Footville—Walked Several Miles in the Country—Mystery of the Hat and Pocket Book.

Edith Maud Dailey is back in jail. Edith Maud is the lady who gave Marshal Brink the slip night before last while en route to Janesville from Evansville. She was caught at Footville by Chief Acheson and Marshal Brink yesterday, and brought to Janesville and locked up last night. Edith Maud is quite a walker as her escape shows. She said that she got off the train when it stopped at the Jackson street crossing, and struck for the country on foot. At 8:30 o'clock in the evening she rapped at the door of Farmer Root's house, two and one-half miles west of Janesville. "I have just escaped from the poorhouse," she explained to the Root family, "and I am going to Mr. Finnegan's. He lives somewhere about here, but I would like to stay here all night and find Finnegan's place in the morning."

Pocket Book Missing. The Root family were not the people to refuse shelter to a person in need and they invited Edith Maud in. She said her name was Campbell, and she hoped to find her friends, the Finnegan's, without delay. The next morning she was up bright and early, and came down stairs with a bundle under her arm. "What have you in the package?" the Roots asked. "Old clothes," Edith Maud responded naively.

But she misrepresented the contents of the package, for when it was opened it was found that the paper covered a new hat belonging to Mr. Root's daughter. About this time it was also discovered that a pocket book belonging to a member of the family was missing, and Edith Maud was questioned. She said she was not acquainted with the book, and was sorely offended.

Found the Book. But they searched her, and the pocket book was found in her possession. This discovery both surprised and surprised her, but she surrendered the book and hat, and struck off toward "Finnegan's" on foot. Mr. Root by this time decided that Edith Maud was not a proper person to be at large, so he came to Janesville and told Chief Acheson of "Miss Campbell's" appearance. Marshal Brink was still here, so the chief hunted him up, and they drove to Root's house.

Edith Maud had not let the grass grow under her feet, however, and while Mr. Root was on his way to Janesville, she was introducing herself to the family of George Hatton, who lives three miles from the Root homestead. She told them the same story, and Mr. Hatton took pity on her. He hitched up his team, in response to her request and carried Edith Maud to Footville.

About that time the officers showed up at the Hatton home, and learning that Edith Maud had gone, they too drove to Footville. Arriving at the village, they learned that Edith Maud had enquired about the trains going south, but found that she could not get away. Accordingly, they began a search of the town. While Marshal Brink was hunting over one part of the village, Chief Acheson, who was at the other end, got trail of the missing woman. He followed the clue up, and found the object of the search at the home of Mrs. Wells, who runs a boarding house, where Edith Maud was just sitting down to supper. He arrested her and Marshal Brink brought her to Janesville in a buggy, while Chief Acheson went to Hanover and caught a train to the county seat.

When Edith Maud arrived at the jail, Sheriff Appleby did not recognize her. She wore a pair of gold spectacles, and had changed her appearance in other ways. She also had considerable clothing on that she did not have when she left the jail, but she did not explain where she got it. She will now be compelled to stand trial with her male friend, Charles Kinney.

THE M'KINNEY SALE IS UNDER WAY

WEATHER CLERK STILL "AGIN' THE GOVERNMENT."

Twice the Sale Has Been Postponed On Account of Rain; But it Was "Three Times and Out"—Good Sized Crowd Present—What the Animals Brought.

The weather man seems to be strongly opposed to H. D. McKinney's horse sales.

Twice before the weather had been unfavorable, and the sale had to be postponed in consequence.

Today it was some better, but that a drizzling rain should follow as fine a day as yesterday, seemed a bit strange. It was "three times and out," however, and today the sale went on. This morning's sales were made at the fair grounds, but this afternoon business was done at M. J. McCue's livery barn.

O. Buckinton, of Chicago, acted as auctioneer, and A. F. Phillips kept the record. The sale was to be absolute, and included the entire track and training outfit, farming tools, etc. The attendance was quite large, many horse lovers from the surrounding territory being present. Several horses from the Fisher stock farm were also included in the lot offered.

Some of the horses sold were: King Harry, yearling \$40, Mr. Parker of Clinton.

Vexation, \$90, A. H. Kane, Belvidere.

STOCK COMPANY TO BUILD SAWS J. H. Gateley Interesting Local Capitalists in a Manufacturing Proposition

J. H. Gateley is interesting local capitalists in a move to manufacture Gateley gang saws in this city. It is important that every effort be made to develop the manufacturing interests of the city and this plan, which is not intended to boom any addition or sell lots is worthy of encouragement.

"The lines that pay best, of course," said Mr. Gateley today, "are those where there is little or no competition. Such is the case with my portable and stationary gang saws for cutting stove wood. There is no competition in the United States or Canada which leaves a big field and good market to dispose of the saws in at a big margin to the manufacturers. There are a number of good factories now idle which could be used for making the saws. Mechanics would be given employment, and the merchants in all lines of trade would get the benefit. My proposition is to start a stock company with capital enough to manufacture the saws and put them on the market in proper shape. There is very little doubt that a company will be formed."

THE DAUGHTER.

There's one I miss—a little questioning maid
That held my finger, trotting by my side,
And smiled out of her pleased eyes open wide,
Wondering and wiser at each word I said.
And I must help her frolic if she played,
And I must feed her trouble if she cried;
My lap was hers past right to be denied;
She did my bidding, but I more obeyed.

Dearest she is today, dearer and more;
Closer to me, since sister womanhood meet.
Yet, like poor mothers, some I love while bereft,
I dwell on toward ways, quaint memories left.
I miss the approaching sound of pit-pat feet,
The eager baby voice outside my door.
—Augusta Webster.

NO ONE KNEW HIM.

"I am very sorry, George, but this was really what she said."

These were the words of Florence Larkin to her brother. George had entrusted her with that difficult commission—to find out why Gertrude was off and on with him—why she was sometimes so cordial and sweet and sometimes so distant. And poor Florence had to explain to George that Gertrude had virtually said that he was too commonplace. She could not marry a man that nobody knew and nobody talked about. He was good, he was successful, he was kind, he was everything that Miss Edgeworth would require in one of her novels, but he did not attract people's attention. Nobody ever heard of George Larkin.

After Florence had explained this in the minutest way possible twice, George seemed to understand what she was talking about.

"Does she want to see my name in the newspapers?"

"I should not say that," said Florence.

"Does she want me to ride down Broadway in plate armor and nail on the doors of Trinity a notice that she is the prettiest girl in the world?"

"She did not say so," said Florence.

"Does she want to see me more?"

"I should think you would do better if you went there less," said Florence.

"If all she wants is to have me talked about, she shall have her way." And George Larkin flounced out of the room.

Ten days after, as Gertrude Clark came down, rather late, to her breakfast, the servant brought in a pile of letters on the salver. Gertrude's little sister counted them; there were 23. "What in the world has happened?" said she.

The little sister cut them open, and Gertrude read:

DEAR MISS CLARK—I think you know Mr. George Larkin. Will you have the kindness to put his address on the note inclosed?

DEAR MISS CLARK—Do you know your friend Mr. Larkin well enough to ask him to come round to our reception? It is very informal, but we shall be so pleased to see him.

DEAR MISS CLARK—I am so annoyed that I forget Mr. Larkin's first name. I want to send him a card for our party. May I trouble you for his address?

Twenty-three notes that contained such references to George!

Yet for these ten days past George had not sent her—no, not a carnation. He did send her a note to excuse himself from driving with her in the park. He was not even at her aunt's regular family party, where he had begged her to have him invited. George had wholly dropped out of her life, and Gertrude had begun to wish that he had not dropped out.

The reader shall know what had happened. The reader shall know how a nice girl may be suddenly waked up to find that her lover is not the unimportant person which in his humility he had made her believe. The reader shall know how one young man got himself named from one end of a continent to the other.

All this happened in a very large city of 2,000,000 people, which is the capital of a very large country, which country is next to the republic of Altruria.

This country was governed partly by the principles of the nation of Altruria, partly by the principles of the devil and partly by a sort of happy go lucky system which had worked very well for 100 years. In the course of the happy go lucky arrangements it found itself in a scrape for the sort of ready money that it wanted. It had some ready money, which the people did not much like, and it wanted some ready money made of beaten gold. And so the chief magistrate of this happy go lucky country had issued his proposals for what was called a "popular loan."

Nobody knew very well how the popular loan was to be taken up, but everybody was quite sure that his next door neighbor had better subscribe to it. People went so far as to say how much Mr. Jones ought to subscribe and how much the Widow Smith ought to subscribe. But, up till the moment when Gertrude sent that unkind message to George by Florence, nobody knew very well how the thing was going to turn out. It might be that the popular loan would all be taken up by a set of sharpers, or it might be that it would not be taken at all. It might be that it would be a very unpopular loan. And everybody was very curious to see.

There was once an occasion when all the nations of the world agreed that every person in the world should scream as loud as he could at a particular instant of time. When the instant came, there was a horrible stillness over the mundane creation. For everybody, instead of screaming himself, had listened to hear somebody else scream, and no one screamed but a dumb man in China and a deaf woman in the Sandwich Islands.

It was something like this about the popular loan. But at last the great day came when, at Washington, they opened the bids.

Now, the credit of this nation was pretty good and pretty bad. In very bright, gilded times it could borrow money at less than 3 per cent. In those times when there was trouble about the sort of money that it would give and take, it generally had to pay \$1 on \$100—that is to say, its 4 per cents were placed at 104. The different sharpers and the different old ladies, the men and women who had been coaxed up to subscribing in different ways, were in gen-

eral sending in their bids at 105 and 106 and 107.

But when at Washington the bids were opened, the weary clerks hearing "107 7-8," "104 11-12," till they went almost to sleep as they wrote down the scarcely varying numbers, all of a sudden a bolt fell like lightning from Jupiter. The reading clerk, almost as sleepy as the rest, cried out: "One hundred and twenty-five! Mr. George Larkin of New Bedlam offers 125 for 10 bonds of the new issue!"

Every sleepy clerk in the room started up in amazement. "Who is Mr. George Larkin?" And his bid was entered as by far the highest bid in the calendar.

The next evening every journal in that great empire, which extended from ocean to ocean, had a biography of Mr. George Larkin. These biographies were made up generally from the information given in the directory of New Bedlam. One of them therefore described Mr. George Larkin as the leading man at the Varieties. Another said that Mr. George Larkin was engaged in a profitable thread and needle business in the lower wards of New Bedlam. Another said that Mr. George Larkin had won his distinction as a reporter for the press. But all persons agreed that Mr. George Larkin was a person of great importance in the financial community, and that he was a patriot of the first water. It was generally agreed also that his foresight with regard to national affairs was well nigh perfect, and that no person knew so well as he did when stocks would rise and when they would fall. "Our readers will remember how on a previous occasion the whole turn of the stock market was changed by the sudden purchase of P. F. and L. This purchase is now attributed to the foresight of Mr. Larkin."

Gertrude, on that particular evening, did not happen to open her newspaper. If she had, she would have known that her lover was that day the man most talked about in the whole world. After this, she was so overwhelmed by her correspondence from different people who wanted her to introduce them to Mr. George Larkin that she had no time to open the newspapers for six months. She never knew, therefore, why Mr. George Larkin suddenly attained the prominence in all social walks, in walks of finance and indeed in the esteem of his fellow countrymen, which she had gained. She did know that, two or three days afterward, he came in to see her looking like a new man. He stood erect where his head had hung low, he had a cheerful smile on his face where he had looked dejected when she snubbed him. In fact, she did not dare to snub him. She knew that he was a person of much more importance in the estimate of the world than she was. And when George Larkin, for the first time in his life, gained the courage to ask Gertrude if she would marry him and make him happy for the rest of his life, Gertrude had no thought of saying anything but yes. So much is even a good girl governed unconsciously by the tone of the people who are around her.

It is an unimportant thing to add, but this great empire rose from its depression on the strength of Mr. George Larkin's offers to the treasury. Everybody saw that he was right, and nobody else was right. Four per cents rose to a higher line than had ever been known in history. The reputation of Mr. Larkin as a financier was established. Rothschilds and Belmonts and other bankers of the world begged for his advice, and offered him places in their firms. These he was not so foolish as to accept. But he lived a happy life with the woman he had loved, and he had the glad consciousness that, by the way, he had saved his country.—Edward Everett Hale in Chicago Inter Ocean.

GLASS EYE FOR A PUG DOG.

An Unusually Ugly-Looking Brute Made a Better Appearance.

The Westminster Gazette representative reports the following interview with Dr. E. H. Scott of the Dogs' hospital, High street, Sydenham:

"As far as glass eyes go," said he, "I had one made for a dog."

"What sort of a dog was it?"

"A stud pug one," said he, "and a beautiful dog it was, a fine shape, but terribly disfigured in one eye. It was double the normal size and ghastly in appearance, standing right out from the socket. I suggested an operation and an artificial eye, at which the owner rather smiled."

"He was incredulous of the possibility of a glass-eyed dog, of course."

"Yes; but he eventually agreed to let me try my hand, as it was such a valuable dog, and on my assuring him that I would do it no harm we injected cocaine around the membranes of the eye and then removed part—and only part—of the eye, leaving sufficient to form a bed for the artificial eye."

"Did it stick in?"

"We put a shell in first to keep the lid in position. We had to get the eye specially to color and shape, and at last we fixed it in. It matched so well that you had to look very close indeed to know it from the natural eye. It made a wonderful improvement in the dog. It was 20 pounds better in appearance."

"And the dog wore it without inconvenience or pain?"

"Yes. It has been exhibited often since."

"Have the judges known it was glass-eyed?"

"No. They couldn't tell. It deceived me even for the moment when I've seen it and not happened to remember that it was the pug I'd attended to. Of course, the eye has to be taken out occasionally and cleaned."

The old story of Prometheus is a parable. Prometheus was on terms of intimacy with the gods. From them he stole fire, and gave it to men. For this sin he was bound to the rocks of Mount Caucasus, and vultures were set upon him. They only ate his liver. This grew again as fast as it was pecked away. Are his sufferings to be imagined?

Take a modern interpretation of the parable. There is no cooking without fire. In cooking and eating the mischief lies. The stomach is overtasked, the bowels become clogged they cannot dispose of the food that is given them. The impurities back up on the liver. Then come the vultures—the torments of a diseased liver.
